

Serial No. 09/909,414
Docket No. 10509-030

REMARKS

Claims 1-13 are pending in this application. New claims 14-21 were added in the response/amendment mailed 11/12/2003. Upon entry of those claim amendments, claims 1-21 are pending in this application.

Applicant provides a revised copy, with inadvertent errors crossed through and initialled, of the Fee Transmittal form, PTO/SB/17, submitted 11/12/2003. Applicant recently identified two inadvertent errors in this form, correction of which is now being made. Namely, this form was edited from a previous form for another application, and accidentally left on the form from the previous application were a check mark indicating small entity status, and a total sum shown of \$824.00. These are hereby corrected by submission of the revised copy herein. It is noted that the Applicant is in fact a large entity, and the fees paid for extra claims, totalling \$104.00, were in fact based on charges for a large entity.

Applicant also provides amendments to claims 14-21. In the response submitted 11/12/2003, where these claims were first presented, the recombination target sites were both attributed to the first nucleic acid. This was an inadvertent error and has been corrected to show that one site is of the first nucleic acid sequence, and the other site is of the second nucleic acid sequence. This correction is consistent with the specification and independent claims upon which these claims depend. This correction neither adds new matter or narrows the claims.

* * * * *

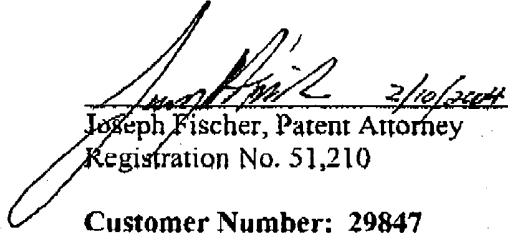

Entry of the above amendments is respectfully requested.
